**Description**

If you're looking for that inspirational kick-in-the-pants to help take your life and career to the next level... this ain't it. To be perfectly honest, I'm tired of all the "inspirational" BS that passes for entrepreneurial podcasts these days. You won't find any neurohacking, hyper-accelerated list growth techniques, or sleazy marketing strategies. What you WILL get are honest, meaningful conversations and discussions about things that matter. The struggle to find purpose and meaning in our life and work, how to deal with self-doubt, fears, insecurities and failure. All the stuff we face every day, but don't want to talk about. Sure, there will be plenty of conversations about entrepreneurship, business, marketing, blogging, podcasting, audience building, content creation, etc. But the through-line that connects it all is true authenticity and honesty. No BS. No hype. No meaningless buzzwords designed to get you to waste your money on a useless product. Just raw, honest conversations about things that actually matter. If you like The Fizzle Show, The Tim Ferriss Show, Nathan Barry's podcast, Paul Jarvis' and Jason SurfrApp's Invisible Office Hours or the #AskGaryVee show (ok I'm out of names to drop), you'll probably enjoy this one. Your mileage may vary.
